

Year 4 Home Learning Bulletin
Summer Term 2

Homework Set: 5th June 2026

Your Own Narnia

In Literacy we are reading **The Lion, the Witch and the Wardrobe**. Can you create your own secret land? You can write, draw or create a slide show about it. What will it look like? Who will live there?

How Delightful!

Turkish delights are THE sweet treat in Narnia. Can you come up with your own perfectly magical and delicious sweet treat. What's its name? what does it look like? Is there a special recipe?

Super Scientist

In Science we are investigating which material is best for a parachute, in order to keep a boiled egg safe as it falls from tall heights.

Can you investigate this at home? Use 2 different materials you think may work well and try them out to see which one gives you the best results! You can upload pictures to Google Classroom or draw a diagram to show your investigation!

Secret Talents

We have loved getting to know you over the year but we are wondering if you have any talents we don't know of. Are you a secret ballerina? An excellent swimmer? Do you have an unusual hobby?

Write about it or send us a video of you doing your talent or hobby.

Exploring The World

We are going to be learning about Italy in Geography and how it compares to where we live. What can you find out about Italy? You can create a poster or an information leaflet with all the information you find.

Moving to Year 5

We can't believe that year 4 is nearly over! What are your hopes for year 5? What are you looking forward to?

Are you worried about anything? Write us a paragraph about how you are feeling at this point in the year.

Key Maths Skills

- This half term, we will be learning about **money, time, position** and **shape**.
- At home, for the next couple of weeks, please continue to practise times tables using Times Tables Rockstars.
- If you would like a 5-minute frenzy page to practice your tables, please be sure to ask me and I will happily give you one. Alternatively, you could get your own 5-minute frenzies online by going to <https://math-drills.com>
- Alongside the above-mentioned topics, we will also be working through reasoning problems using addition, subtraction, multiplication and division in school.
